Forde Electorate Pre-Budget Submission

Dear Treasurer ,

As you prepare the Federal Budget 2023-2024, I would like to draw your attention to a number of projects in my electorate of Forde that should receive funding priority.

These projects, would significantly improve local infrastructure, provide continuation of vital mental health and early intervention support services across Logan and the Northern Gold Coast and support grassroots organisations to provide opportunities for young people to participate in both sport and the Arts.

Please find attached a list of fifteen identified priority projects which are integral to the continued growth and development of the local area. I believe that these projects are of great importance and implore you to find provision within the forthcoming Federal Budget to fund these worthwhile projects to the benefit of the Logan and Northern Gold Coast communities.

Yours sincerely

Bert van Manen MP
Federal Member for Forde
Chief Opposition Whip
